communicate • collaborate • facilitate

## **THE MOMENTUM WE CREATE DURING OUR CONSTRUCTION PARTNERING WORKSHOPS CONTINUES – *VIRTUALLY.***

- Our industry is changing, and we are changing with it. We offer our clients the option of conducting our construction partnering workshops through a variety of video conferencing platforms.
- From their jobsite, home or office, our clients are participating in our virtual workshops.
- Just like each of our workshops, our video conferencing platforms have been custom built for our clients and our construction partnering program.
- Our virtual workshops can incorporate an unlimited number of video and/or phone-in participants.
- Our technology works across all platforms (Apple, PC, iPhone, iPad, Microsoft Surface, Samsung, etc.). No redundancy. No buffering. No problems.
- We coordinate all of the logistics and scheduling for our virtual conferences.
- We facilitate the workshop incorporating customized agendas, flip charts, screen sharing and other proprietary workshop documents.
- We provide detailed after-action reports, meeting minutes, screen shots and next steps to all participants in the workshops.
- Creative Alliance Group's award-winning Construction Partnering Program continues to evolve to meet the needs of our clients.
